CITY OF SALISBURY

*"...to enforce the codes of
the City of Salisbury and
improve the quality of life
within our community
through ensuring that our
community is visually
appealing, clean, and safe."*

CITY OF SALISBURY, CODE SERVICES DIVISION, HAS BEEN ESTABLISHED

Serving you so that you can serve your community with a better understanding of the code.

Who are we?

The Code Services division has a primary goal of delivering the highest possible customer service to the community as we enforce the City of Salisbury codes in an effort to make our community and housing visually appealing, clean, and safe.

On a daily basis, it is our practice to enforce the codes and ordinances set forth and adopted by the City of Salisbury. In doing so, we help facilitate habitable housing, provide safer environments, clean up properties, ensure our city is appealing, and ultimately provide adherence to our city codes.

What do we do?

As the Code Enforcement Officers are inspecting their section of the city, the focus of their inspections can be summed into three (3) categories, but is not limited to:

1-Minimum Housing - deals with the safety and livability requirements in housing situations

2- Nuisance Abatement - issues such as overgrown grass on property, inoperable vehicles, and trash on lots

3- Zoning – examples include improper outside storage, improper use of zone, and parking vehicle(s) in front yard of property

Why does the code exist?

The city code exists to provide citizens a safe, clean and appealing environment to live in. In essence, it exists so that you, as well as your future generations, can exist and all the while enjoying the community that you live and take part in.

What can you do?

As a citizen of Salisbury, you should take pride in the city that you live in. Being compliant with the codes and ordinances of the City of Salisbury is a great way for you to show this pride. Also, if you observe a non-compliant act or situation, you should report it to our office, or directly to one of our officers, and we will address the issue in a manner that the code allows us. We appreciate your help and your desire to maintain your community.

Working together
we can achieve more.
